## Preliminary Final Report to the Stock Exchange

In a year that was characterised by modest economic fundamentals, as well as delayed progress with the various natural resources projects, Steamships' disciplined approach to financial management delivered a satisfactory outcome for shareholders. By adopting a strategic and flexible approach to capital expenditure, the Company is well positioned for the future growth in demand.

The Post-COVID recovery that started in 2022 did not accelerate, as hoped, in 2023. Therefore the focus was to maintain profitability whilst investing in strategic assets (such as Portside Business Park and additional logistics assets) to meet long term growth objectives.

The Company, through its diversified operations, was able to balance lower demand for logistics products and services with stronger performance from its hospitality and property divisions, reflecting an ability to adapt and respond to external market challenges.

Steamships' sales revenue, on a continuing basis, increased $4.0 \%$ to K656.3 million against last year's K631.3 million, with improved revenue across the various businesses.

| Underlying profit attributable to shareholders | $\mathbf{5 0 , 2 4 0}$ | $\mathbf{7 6 , 0 7 5}$ | $\mathbf{( 3 4 . 0 \% )}$ |

Depreciation in 2023 was K104.5 million against K95.3 million in 2022, and interest on net borrowings (excluding capitalised interest) was K1.7 million (expense) against K1.2 million (expense) in 2022. Capital expenditure for the year was K222.8 million against K129.2 million in 2022.

The group's net operating cash flow generation decreased by $37.2 \%$ to K 115.3 million against K 183.5 million in 2022. The cash balance at year end is K25.9 million.

A final dividend of 60 toea per share has been proposed and will be paid following approval at the Board of Directors meeting on $13^{\text {th }}$ June 2024, subject to Steamships' ability to secure foreign exchange for non PNG shareholders. As there was an interim dividend paid during the year of 35 toea per share, the total dividend for the year is 95 toea per share (2022: 120 toea per share). The dividend is unfranked and there is no conduit foreign income.

## Coral Sea Hotels

Coral Sea Hotels' solid performance can be largely attributed to a significant influx of diplomatic visits and the Pacific Island Forum, showcasing the division's ability to deliver premium customer experience. ENZO's continues to expand the food and beverage offering with the opening of new outlets. A major renovation program across all hotel properties in 2024 will position the division for the expected increase in demand in years to come.

## Pacific Palms Property

Pacific Palms Property's experienced firming demand in both residential and commercial units. However, inventory was reduced as a result of renovations and repair work, and this depressed both growth and profitability. The new development in Port Moresby, Harbourside South was substantially completed during 2023, and is scheduled to opening in Q1 2024. Phase 1 of the Dobel Shopping Center in Mount Hagen was completed ahead of schedule in Q3 2023; Phase 2 has entered final design and financing stage. The first Marriott Property in PNG, Marriott Executive Apartments (located in Harbourside South), opened on $19^{\text {th }}$ February 2024.

## Logistics

Both Consort and EastWest Transport experienced headwinds driven by softness in domestic markets and demand. Reflecting Steamships' long-term horizons, additional shipping capacity was added to cater for expected underlying growth as well as project driven demand arising from Papua LNG. The first assets were successfully contracted to TotalEnergies in 2023.

Pacific Towing provided a consistently reliable harbour towage service throughout the year. Returns were bolstered by salvage operations late in the year.

## Commercial

The results of Colgate-Palmolive (PNG) Limited, a PNG incorporated joint venture, showed strong growth across most product categories as well as margin improvements driven by favourable sales mix and effective cost controls; supply chain performance has returned to pre-COVID levels and inflationary pressures have been offset by price adjustments.

## Appendix 5C Preliminary final report

## Trading Outlook

There is still optimism that early-works activity for the Papua LNG project and broader infrastructure investment should gain traction in 2024. However, there are worrying indications that the timeline of the project may be slipping again; Steamships will maintain a cautious approach to committing capital to project related activity until final investment decision is secured. Steamships, through its investments in 2023, is well positioned to benefit from the improving economic conditions. It remains committed to continuous improvement in productivity and is vigilant in identifying opportunities for growth. The opening of Harbourside South will inject new vibrancy into the Downtown Precinct and will be a catalyst of local economic growth.

Papua New Guinea is our home and principal place of business, and we will continue to actively contribute to its economic and social development. The Board of Directors would like to thank all our staff for their commitment and personal dedication during what has been a challenging few years for the entire country.
